RE: DAS Letter of Notification - Task Deliverable 3.2.2 b (2)
Project 3.2 Building Integrated PV Testing and Evaluation Project
Commonwealth Energy Biogas/PV Mini-Grid Renewable Resources Program

With this letter, we hereby notify the Energy Commission that the data acquisition system for the Comprehensive Small System Comparison portion of Project 3.2 is complete. Attached is the Small System DAS manual, which describes the system's design and operation.

The DAS is fully operational and data for the three systems at PVUSA are being streamed to the database computer and are currently viewable on the password protected area. We will be making the data available on the public page within the next two weeks.

Please let me know if you have any questions or comments regarding this deliverable

Kindest Regards,

A handwritten signature in black ink, appearing to read "Chuck Whitaker", with a long horizontal flourish extending to the right.

Chuck Whitaker
